MERRY BUTTONS

MATERIALS:

- White card
- Colorful buttons
- Hot glue gun or PVA glue
- Black ink pen

METHOD:

1. Stick colorful buttons randomly on the white card.
2. Turn the buttons into hanging baubles by drawing straight lines down to the buttons.
3. Or turn into festive lights instead by drawing a wavy line above all the buttons, from one side of the card to the other. Then draw little loops to connect the buttons (lights) to the wavy line.

LITTLE HELPERS:

Let your little ones pick the buttons and stick wherever they please on the card. Then you can turn them into either baubles or festive lights depending on what works best with their placement. In the end, even a “tangled up” bundle of festive lights is going to make for a fun, unique Christmas card!
